DINING & DRINKS

Woven Into The Rhythm Of The Night

The Culinary Programme

Elevated Shanghai-Inspired Dim Sum

Small plates and shared dishes designed to be grazed across the full arc of the evening – from early cocktails through to the early hours. The food is not confined to a dining window. It moves with you.

Cocktail Programme

Developed in collaboration with Bobby Carey and Tom Hogan – formerly of Proof & Company, architects of Manhattan at Regent Singapore and ATLAS. Classic foundations fused with Chinese teas, botanicals, and subtle spice – speaking to both the focused cocktail guest and the late-night reveller.

CHINATOWN AS HOME

Chinatown was chosen for its centrality and its character.

The neighbourhood sits at the intersection of Singapore's most vibrant districts made for arriving early and staying late. Its historic shophouses, intimate streets, and lively evening energy make it the right setting for discovering a hidden salon behind velvet curtains.

The location connects organically to the culinary and cultural direction of the venue. Chinatown is part of the story, not just a postcode.
